

PERIPHERAL NEUROPATHY SEMINAR

William D.Green, D.C.

Dr. William D. Green will be conducting a Peripheral Neuropathy Seminar

425 S. Medical Drive Suite 216, Bountiful

Tuesday, Feb. 23, 2010 from 6:00-7:00 pm

If you have PN, you need to know the answers to these important questions:

- | | |
|-----------------------------------------------------------------------------------|----------------------------------------------------------------------------|
| <input type="checkbox"/> Why some exercises may be doing you more harm than good? | <input type="checkbox"/> Could your immune system be making your PN worse? |
| <input type="checkbox"/> Which therapies and exercises are helping PN patients? | <input type="checkbox"/> How can your breakfast make PN symptoms worse? |
| <input type="checkbox"/> What is "plasticity" and how can it help PN? | <input type="checkbox"/> Are your nerves really dying? |
| <input type="checkbox"/> Can PN cause a hip fracture? | <input type="checkbox"/> What your nerves (and brain) need to survive? |

7 WARNING SIGNS OF P.N.

- | | |
|-------------------------|-----------------------------------------------|
| 1) Numbness | 5) Pain When Walking |
| 2) Burning Pain | 6) Difficulty Sleeping
From Leg Discomfort |
| 3) Cramping | 7) Prickling / Tingling
Feelings |
| 4) Sharp, Electric Pain | |

This is a must attend seminar for anyone suffering from P.N.
